enefits

**Facilitates meeting protocol
in a Conference Call**

enefits

**rovides electronic tools to
mplement parliamentary
procedure**

enefits

**rovides visual feedback and
message continuity by always
showing each participant a
photograph of the current
peaker.**

enefits

**rovides an electronic Movie
nd Slide player for tele-
resentations**

enefits

**rovides an interactive
electronic WhiteBoard as a
visual aid for
discussion**

enefits

**allows voting to get group
consensus. Voting results
can be archived for later
reference**

enefits

**upports un-moderated or
oderated meetings, lectures,
anel discussions, or round
able discussions**

enefits

**aintenance of participant's
ights: facilitator, lecturer,
peaker, participant, non-
oter, observer**

enefits

**can be used to reduce
business travel expenses. In
many cases, the whole
system pays for itself in the
first meeting**

enefits

any people don't need the level of sophistication provided by a live video conferencing system. Since the system doesn't require cameras, CODECS, or expensive transmission medium it is affordable by many more people

enefits

**People have been using
telephones since childhood
and don't have a problem
visualizing that they are
talking to another person**

enefits

**s much more difficult to
visualize ideas that are
spoken about in conversation**

enefits

**he live WhiteBoard is useful
s visual aid for discussion**
